New Report 2021: Roman Catholic priests in Poland abusing Polish children

Roman Catholicism had its own ways to cover up for this kind of crimes. They are never reported, they are reported to bishop then nothing happens, priests caught in the act are moved from parish to parish and “the life goes on”. Many politicians in Poland and different high ranking officials are Roman Catholic, so it was not easy to investigate their “beloved church”.

New Report 2021: Roman Catholic priests in Poland abusing Polish children

Conclusions:

6) While victims of similar crimes were awarded millions of dollars in USA, in Poland they still may receive a fraction of the money.

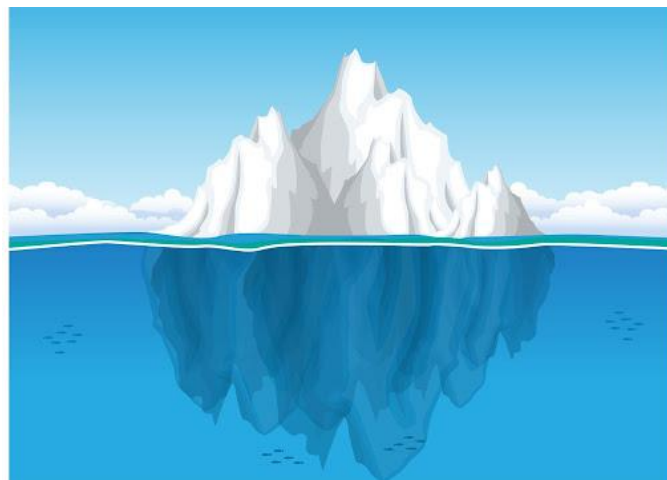

Peanuts...
